UGC

Recognised

**Ministry of
Urban Affairs**

Actively supported by
the Govt. of India

RICS School of Built Environment (RICS SBE), Amity University is the first and only industry-led academic institution which delivers specialised undergraduate and postgraduate programs to students aspiring to work within real estate, construction and infrastructure sector. It also serves as a hub for research and development of technical expertise in built environment.

Established in 2013, RICS SBE is the only academic institution in India to offer RICS and PMI-GAC accredited courses that are recognised by UGC and supported by leading real estate, construction & infrastructure firms as well as the Ministry of Urban Development, Government of India.

It is located at Amity University's Noida and Mumbai campus and has nearly 2000+ students enrolled. Set up in response to a strong call from the industry to address the challenge pertaining to the shortage of skilled professionals, the School aims to bridge the skills gap by delivering employment-ready professionals year after year.

OUR VISION

To be a world-class academic institution engaged in the creation of knowledge and sustainable value in the built environment.

OUR MISSION

- 🔗 Deliver an outstanding student experience
- 🔗 Bridge the skills gap by shaping employment ready professionals
- 🔗 Exhibit excellence in research and teaching
- 🔗 Demonstrate on-going relevance to the industry
- 🔗 Retain thought leadership in the built environment sector
- 🔗 Produce global professionals with integrity and competence in keeping with RICS standards

OUR ROOTS

- The grounds to set up this institution were laid in 2011 when an RICS research demonstrated that nearly 80% shortage of skilled professionals in this sector was curbing its growth.
- Globally, RICS accredits specialised degrees in real estate and construction offered by different universities. Graduates of such accredited degrees are then eligible for the RICS chartered qualification.
- However in India, higher education of this kind was not available. As a result, alongside civil engineers, architects and planners, a large number of professionals from other backgrounds were being drawn into the sector and learning on the job.
- Being a global professional body that offers chartered qualifications and standards for this sector, the industry called upon RICS to bridge this talent gap. And thus, RICS and Amity University came together to establish the RICS School of Built Environment (RICS SBE), Amity University in 2013.

OUR VALUES

PROFESSIONAL

INFLUENTIAL

ENTERPRISING

ROYAL INSTITUTION OF CHARTERED SURVEYORS

Founded in London on 15 June, 1868, RICS is today a leading global professional body with over 125,000 accredited professionals served by a network of offices around the world.

As a globally recognised professional body, everything we do is designed to effect positive change in the built and natural environments. RICS delivers confidence through respected global standards, adopted and enforced by over 134,000 qualified and trained professionals across the built and natural environment.

Amity is the leading education group of India with over 1,00,000 students studying across 1000 acres of hi-tech campuses. Amity University has a global presence with its campuses in London, Dubai, Singapore, New Jersey, China and Mauritius.

Amity University is passionate about grooming leaders who are not only thorough professionals but also good human beings with values and sanskaras. This is just one of the many reasons why it is consistently ranked #1.

“ RICS School of Built Environment, Amity University is offering a unique set of undergraduate and postgraduate programs focusing on the management of real estate, construction and infrastructure industry. The School was set up to professionalize the built environment industry and is making a genuine difference to the profession.

Our aim is to create a set of highly skilled and competent professionals who are valued both for their specialised knowledge and for their ability to research, communicate and solve problems. The School prides in providing excellent learning environment that helps producing competent professionals needed by the industry today.”

Ashwani Awasthi

Managing Director,
RICS Schools of Built Environment,
Amity University

“ In our journey to contribute to nation building through education, an important focus area has been the real estate and construction sector. In pursuit of the highest quality standards, Amity joined hands with RICS to set up RICS School of Built Environment, as part of the Amity University.

We take pride in being a first of its kind, industry academia partnership, which has been welcomed by the industry and has successfully shaped the careers of many students.

Dr. Atul Chauhan

Chancellor, Amity University
President, Ritnand Balved Education Foundation
CEO, AKC Group of Companies

“Amity University, Mumbai, is continuously pioneering initiatives to transform the education sector and groom industry-ready leaders as well as to contribute towards nation-building. With the fully functional RICS School of Built Environment at Amity’s Mumbai campus, we have strengthened our unique partnership with RICS that is committed to creating conducive environment globally for professionals. This integration of industry and academia has brought global expertise to Indian shores for the real estate and construction industries, with focus on skill development and competency enhancement.”

CAMPUSES

With a world-class infrastructure that has all latest amenities, we proudly boast of an environment that is not only student-friendly but also the most conducive for dynamic and focused learning. We have two state-of-the-art campuses — one in Noida and second in Mumbai.

Noida

Centrally air-conditioned buildings with Wi-Fi connectivity and well equipped libraries provide a conducive environment for learning. It also houses a recreation and sports center, cafeteria and hostel facilities.

“

RICS School of Built Environment shapes professionals in Built Environment sector. Through the competency based Education 4.0, there is only one school in the country that meets with global standards accredited by RICS UK and Global Accreditation Council of Project Management Institute (GAC-PMI).

”

Prof. Dr. Deepak Bajaj FRICS

Associate Dean and Director,
School of Construction,
RICS School of Built Environment,
Amity University, Noida

Mumbai

With air-conditioned academic block and 100 Mbps Wi-Fi, the campus facilitates students' all-round growth. It also houses world class sports facilities for soccer, cricket, lawn tennis, shooting and badminton amongst others.

RICS Schools of Built Environment is committed towards world class specialized education in Real Estate, Construction and Infrastructure sectors. We are the only Institution in India offering Degree Programs in Construction Management and Real Estate & Urban Infrastructure.

Our curriculum is specially designed to focus not just on theory but applying knowledge to practical use and software skills.

Completely with hands on practical training, we prepare and shape you for tomorrow's world, today. Our Alumni and their strong network enables us to build more career opportunities with the best reputed Companies not only in India but outside India too.

To nurture yourself and enhance your skills to the next level, start your journey now with RICS SBE.

Senior Director,
ICI Venture

ORGANIZATIONS

We collaborate with like-minded organisations in areas of education, research and thought leadership.

Indian Green Building Council

The Principles for Responsible Management Education (PRME) is the first organized relationship between the United Nations and management-related academic institutions, business schools, and universities. As an extension to RICS' active engagement with UN Global Compact, RICS School of Built Environment, Amity University became a part of the UNGC PRME in 2015 reinforcing our commitment to ethics & sustainability.

Indian Green Building Council

International Facility Management Association

The International Facility Management Association is a professional membership association which exists to guide and develop facility management professionals by providing services, products, resources and opportunities.

Project Management Institute & Global Accreditation Center

MBA Construction Project Management program is now accredited by PMI-GAC, global competent authority for assessing quality of project management education. This is the first program in India to be accredited by PMI-GAC.

UNIVERSITIES

We have strong linkages with prestigious universities in Asia, UK, Australia and US to engage in semester exchange, summer programs, travelling studios and research. This provides a gateway to enrich our academic colleagues and student's experience with global knowledge.

RMIT University, Australia

Our collaboration allows for student & faculty exchange and joint PhD guidance, research and conferences.

**Northumbria
University**
NEWCASTLE

Northumbria University

NU is dedicated to empowering innovators, visionaries and change makers to transforming their lives and make a remarkable impact on the world. They have varied courses like Construction Project Management, International Real Estate and more.

Liverpool John Moores University

Gain an international internship certificate, along with an immersive exposure to the UK built environment sector.

OUR WAY OF LIFE

At RICS SBE, you'll experience an education that equips you with practical skills, exposes you to global ideas, and prepares you for the workplaces of the future. Here's how:

Knowledge that prepares you to lead

You will get a solid grounding in the most recent technologies and concepts, and will be able to adapt to a rapidly-changing future. When you graduate you will grow into an adept professional with the requisite skills to flourish in the industry. Here are just some of the forward looking concepts embedding our curriculum.

Building Information Modeling (BIM)

Today, BIM continues to dominate processes across the built environment, and clients and employers are demanding professionals who can demonstrate BIM knowledge and experience. You will gain advanced skills in BIM, an intelligent 3-D model-based practice that plays a role in optimizing the entire project life-cycle.

Lean construction/value engineering

Lean construction approach tries to manage and improve construction processes with minimum cost and maximum value by considering customer needs. You will learn concepts that are aligned with the principles of lean construction and value engineering, and will be able to apply these in your work.

Advanced energy management and sustainability

You will learn about the complex systems that govern energy management and sustainability, concepts which are the need of our planet's future. The concepts that you learn will enable you to appear for the IGBC AP certification.

Real Estate Valuation

You will learn how to unbiasedly estimate a property's value and quality. You will be able to determine the value of land and property portfolios for mortgage, taxation, probate and collateral purposes.

Building services & Facilities Management

You will learn about building services, including utility supplies and engineering and efficient management of resources that are required to successfully run the most advanced buildings today. As technology leads changes in our world, you will be equipped to manage the buildings of the future.

You will gain the skills necessary to specialise and work in the growing facilities management (FM) industry.

Advanced software used by industry globally

- **Scheduling:** MS Project, Primavera, TILOS
- **BIM:** Autodesk Revit
- **Quantity Surveying:** CostX, Candy
- **Risk Management:** @Risk
- **Quantitative Techniques:** Precision Tree
- **Financial Modeling:** Argus, Excel

“RICS SBE gives immense opportunities to explore in the field of real estate. I got to learn various management skills along with the technical aspects of many real estate projects. RICS SBE adds value to your career and enhances your technical knowledge.”

Anmol Sharma

Placed with KPMG
MBA CPM (2018-2020)
Noida Campus

“The course structure at RICS SBE helped me advance knowledge and competencies that are required in our industry. The school helped me gain confidence and offered us to learn the latest software skills. I aspire to be an MRICS.”

Vishanth Nair

Placed with Chuan Lim Construction, Singapore
MBA CPM (2018-2020)
Mumbai Campus

“The two year MBA course at the school is very comprehensive and well-planned course which gives a great insight into the world of real estate. The course helped me become a confident REUI professional. The leadership series at RICS SBE was the icing on the cake. RICS is a great institute and one should make the most of it.”

Abhishek Khanna

Placed with JLL
MBA REUI (2018-2020)

OUR WAY OF LIFE

LEARN FROM INDUSTRY VETERANS

Experts working at the forefront of their fields visit the School to share their acquired knowledge and allowing immense opportunities for you to interact and learn finer nuances based on real life experiences. They help you to get a better understanding of what's expected in today's workplaces, ensuring that your education is relevant and connected to the needs of the industry.

OUR WAY OF LIFE

GLOBAL – BE IT EDUCATION, WORK OR CULTURE

International Guest Lectures

Every semester, faculty from global schools come on campus to teach our students specific modules out of the curriculum. This helps the students develop global perspectives on local concepts and imbibe global best practices as followed in different regions. All in all it helps them to develop as an all rounded global professional.

International Summer Programs

Our MBA & BBA students get opportunities to opt for the following summer internship programs (at an additional cost) to gain exposure to global built environment industry.

Liverpool Summer Internship Program (L-SIP)

Offered by Liverpool University, UK. This is a four week program at Liverpool University followed by four week duration at RICS SBE with online support from LJMU.

Asian Cities Programme

Conducted by Real Estate Academy of China (REACH) – which involves travel to six cities – HongKong, Singapore, Shanghai, Beijing, Seoul, Tokyo.

OUR WAY OF LIFE

PREPARING FOR THE CORPORATE WORLD

Our students greatly benefit by applying their knowledge in the real corporate world through travelling studios, internships, projects and site visits.

Site visits

We expose our students to real life projects via visits on construction & infrastructure sites where they are taken through aspects such as planning, construction techniques, building management services and facilities.

Summer Internship

Our students gain first-hand experience during the eight weeks mandatory internship, which will help them recognize their desired vertical. Internships carry academic credits and are evaluated by viva conducted by industry experts.

India Built Environment Studio

This studio program exposes our students to the Indian built environment sector through a hands-on research and workshop approach. The studio program covers the top three metropolitan regions in India, which are instrumental in shaping India's built environment sector - Mumbai, Delhi & Chandigarh.

This studio attracts international students too and facilitates cross cultural exchanges with our students. This 8 weeks studio program also enriches our student in terms of market fundamentals, analysing real estate market trends, and urban development governance structure and transaction practices.

OUR WAY OF LIFE

ASPIRATIONAL CAMPUS LIFE

The campus provides a calm and serene setting to engage in various activities and promote all rounded personality development of students. The vibrant atmosphere allows cross cultural exchange of thoughts and practices thereby laying a foundation for a balanced outlook towards life.

Student Learning Innovation and Networking Group (SLING)

An interactive platform where all our students engage in recreational and knowledge based activities. It is an endeavour to help students discover their talents apart from academic pursuits.

Mostly, all the activities are conducted as part of different clubs:

- Social Service Club
- Drama Club
- Entrepreneurship Club
- Music & Dance Club
- Stock Market Club
- Film Critics Club
- Roar Club
- Debate Club
- Photography Club

[S.L.I.N.G]

STUDENT LEARNING, INNOVATION
AND NETWORKING GROUP

SCHOOLS

We have two specialized schools for nurturing students in real estate, urban infrastructure and construction. Each of the school focuses on making you industry-ready by equipping you with skillsets and in-depth knowledge about this ever-changing industry. Each school is headed by distinguished & accomplished professionals with decades of experience.

SCHOOL OF REAL ESTATE

At School of Real Estate, we strive to prepare you for tomorrow with specialized skills in the world of land and real estate.

The role of real estate at personal, corporate & national level has changed enormously and it has become strategic as corporate and nations compete for investments while markets and individuals invest in assets. The lifecycle of real estate is complex and multi-disciplinary involving economics, law, planning, construction technology, valuation and finance and principles of sustainability, most of which in applied sense. The real estate education that the school provides is a unique blend of conceptual and practice based learning. The key concepts that you will learn include marketing management, financial management, real estate policy, law and planning, property valuation, sustainable practices, business development strategies and corporate planning, professional practice and ethics etc.

PROGRAMS OFFERED

- MBA in Real Estate and Urban Infrastructure
- BBA in Real Estate and Urban Infrastructure
- PG Diploma in Facilities Management

At RICS SBE, we don't impart just education but deliver skillsets, which make our Alumni a very valued resource for the entire Built Environment industry. The demand for our alumni is very high in the industry because of their ability to be useful to their employers from the Day 1 of their joining any organization. We are waiting eagerly to welcome you to RICS SBE, and take you on an exciting journey that shall shape you into a top-notch Built Environment Professional. Remember, success is never far for the RICS SBE Alumni.

Prof. Anupam Saxena MRICS

Associate Dean and Director,
School of Real Estate and Infrastructure,
RICS School of Built Environment,
Amity University, Noida

We have been taking continuous inputs from the industry. At the same time, the industry whole heartedly participates into our internship programmes and placement programs. Our students have been getting selected for construction project management roles on some of the Indian and International companies that are operating in gulf. If you join RICS SBE, you will definitely be exposed to global standards and global norms. The students get an opportunity for international internships and placements.

Prof. Amol Shimpi MRICS

Associate Dean & Director,
School of Real Estate and Infrastructure,
RICS School of Built Environment,
Amity University, Mumbai

SCHOOL OF CONSTRUCTION

At School of Construction, it is our endeavour to provide you the latest technology, engineering and management education and to create an environment that not only nurtures the development of critical thinking skills but also supports innovation and deep knowledge of basics.

You will learn a curriculum which focuses on aspects of design management, pre-construction planning, construction project planning and control, cost management, qualitative and quantitative techniques for management, contract management, quality and safety management etc. The School of Construction strives hard to drive the pedagogy that broadly influences successful project delivery. Our teaching and learning processes take a holistic view of the issues pertaining to technology, process, practice and people in construction.

PROGRAMS OFFERED

- MBA in Construction Project Management
- MBA in Construction Economics and Quantity Surveying

RICS School of Built Environment invites you to participate in the admission process for the academic year 2022. We are in our ninth year and with 1000 plus alumni, doing wonders in the built environment sector. RICS SBE is very proud of its alumni who work amongst the finest companies in India and abroad. Their competencies matched by their people skills, establish them far ahead of the rest of their peers. Our students turn into promising and industry ready professionals the day they step into the portals of RICS SBE. We look forward to welcoming you.

Prof. Dr. Deepak Bajaj FRICS

Associate Dean and Director,
School of Construction,
RICS School of Built Environment,
Amity University, Noida

Looking at the present trends and the Industry revolution 4.0, the curriculum is developed by taking industry inputs. At RICS SBE, we have designed this curriculum taking into consideration the competencies required by RICS in-line with the global relevance.

Prof. Sanjay Patil MRICS

Associate Dean & Director,
School of Construction,
RICS School of Built Environment,
Amity University, Mumbai

“ Now is the best time to enter the residential side of Indian real estate with the coming of RERA. People who enter the sector now will be known as legends in the future.”

Anuj Puri FRICS

Chairman,
ANAROCK Property Consultants

“ RICS is synonymous with excellence in built environment and represents the highest standard of professionalism around the world. RICS School of Built Environment is a manifestation of that excellence in a world class institution - an answer to the industry's crying need for skilled professionals.”

Anshuman Magazine FRICS

Chairman - India & South East Asia,
CBRE

“ The industry desperately needs specialized contracts & commercial professionals. We are glad to have found the answer in RICS School of Built Environment.”

Alan James MRICS

VP - Contracts & Commercials,
Shapoorji Pallonji & Co, Ltd.

MBA IN CONSTRUCTION PROJECT MANAGEMENT

PROGRAM AVAILABLE IN NOIDA CAMPUS & MUMBAI CAMPUS

Whether it's a residential high-rise or a major airport, project managers play a key role throughout the delivery process.

Our unique MBA CPM prepares you to excel in the role of a project manager, working in a team, often as a team leader. You will be able to lead teams of specialists including architects, structural engineers, electrical engineers, sustainability experts and finance experts. The best project managers measure their success based on project performance, operational effectiveness and sustainability.

What's new in the RICS SBE MBA in Construction Project Management programme?

We have revised our curriculums keeping the student as the focal point and incorporating the following driving factors:

- Building information modelling
- Internet of things
- Big data analytics
- Business Development
- Real Estate Marketing
- Corporate Real Estate & Facilities Management
- Artificial intelligence
- Digital technologies
- Cloud Computing
- Real Estate Development
- Real Estate Valuation and Finance

Main highlights of the RICS SBE Programme

- Progressive and balanced classroom delivery
- Increased practical/ self-work/ NTCC
- New electives in emerging fields/ areas
- Super-specialisation
- Judgement & decision making
- Emotional intelligence
- Cognitive flexibility
- Service orientation
- Competency-based programmes

You will have the models, tools and techniques needed to manage time, cost, quality, safety, risk, sustainability and human resources on large and complex built environment projects. You will be able to work on different types of projects: commercial offices, residential, hotel, hospital, and institutional buildings, industrial buildings, roads, highways, bridges and infrastructure.

MBA IN QUANTITY SURVEYING AND CONSTRUCTION ECONOMICS

PROGRAM AVAILABLE IN NOIDA CAMPUS ONLY

Quantity surveyors, also known as construction economists, comprise a crucial role in the built environment project life-cycle. This specialised MBA prepares you to excel, as professional advisors on cost and commercial matters.

The program has a rich mix of technical and managerial competencies.

- Business Development & Strategy
- Project Management & Quantity Surveying
- Construction Finance
- Quantity Surveying Data Analytics
- Project support and value added activities

You will gain knowledge and understanding of aspects such as procurement, commercial management, financial management of construction projects, and the processes, technology and people involved in achieving project success.

You will be able to work on different types of projects: commercial offices, residential, hotel, hospital, and institutional buildings, industrial buildings, roads, highways, bridges and infrastructure.

CAREERS

The program will shape competent Quantity Surveyors who can work with real estate development firms, construction companies and contractors, consulting firms as well as financial institutions across all important stages of the project lifecycle such as

- Design economics and cost planning – Added value to design solutions
- Procurement and tendering– Optimise cost and procurement opportunities
- Contract administration – Administer construction contracts
- Commercial management– Assessment of completed work costs
- Life cycle costing – Establish the total cost and spend profile of the project over its anticipated life span

POST-GRADUATE DIPLOMA IN FACILITIES MANAGEMENT

PROGRAM AVAILABLE IN NOIDA CAMPUS ONLY

A unique program that prepares students to become Facilities Managers—a very crucial subset of built environment professionals. A Facilities Manager looks after the operation and maintenance of any facility, be it a mall, office, hospital, school or residence.

Our program is a rich mix of content that is both technical and managerial in nature. It is designed to educate & train graduates in any discipline as competent hands on professional Facilities Managers for all types of complexes such that they are capable of managing all services in their entirety in a global environment complying international standards.

Students gain an advanced level of understanding of the facilities management at operational, managerial & strategic levels. They are prepared to understand the key factors, techniques & methods used in facilities management that contribute to effective & efficient property maintenance & quality of life in the building with a view to enhance employee satisfaction & productivity.

Students are taught to work on all types of projects ranging from commercial offices, residential, hotel, hospital, institutional buildings, industrial buildings and infrastructure.

CAREERS

Graduates from the program take up roles that require skilled managerial, executive & technical manpower for facilities management. They can work for multinational companies, international property consultants, developers & builders, IT / ITES units, facilities management companies / agencies / consultants, condominium / owners welfare associations.
